### General Purpose Blades
**BLA.FG.1110**  
Used for general cutting of bricks, and mortar or general masonry cutting. Also used for cutting tree roots or wood through dirt and sand.

### XL General Purpose Blades  
**BLA.FG.1200**  
Cut up to 170mm deep.

### Plunge Blades  
**BLA.FG.4110**  
Used for general cutting of bricks and mortar. Ideal for single brick removal and toothing of brickwork.

### Switchbox Blades  
**BLA.FG.2110**  
Ideally suited to cut small square holes for electrical switches.

### Headjoint Blades  
**BLA.FG.7000**  
Ideal for tuckpointing and mortar removal on vertical joints.

### Heritage Blades  
**BLA.FG.8000**  
Ideal for mortar removal on thin joints and heritage restoration.

### CUSTOMERS TESTIMONIALS

**Michael Finn - Finn & Son Tuckpointing - AUSTRALIA**  
Saint Marys Cathedral Restoration Project  
"The Arbortech AllSaw saves us 4-5 hours labour a day. Its ability to cut deep, cut square and safely into mortar with low dust made it the perfect tool for this job."

**Tom Inglesby - AUSTRALIA**  
Masonry Magazine  
"The maker claims - and their demo backed them up - that a time-consuming, dusty and inaccurate job can now be transformed into an easy, fast, accurate, safe and virtually dust-free job."
**Allsaw Technology**

**Cut square, cut deep and cut with precision.**

Engineered to significantly improve safety and efficiency when cutting bricks, walls, mortar and more. Ideal for Trade Professionals and DIY Enthusiasts, there is a number of specialised blade options for specialised trade applications.

**CUT SQUARE**

The AS170 cuts square openings with no over cutting. Surrounding brickwork can remain untouched, no bolstering or stitch drilling is required and job completion times can be reduced.

**CUT DEEP**

The AS170 is the only small handheld saw able to cut to a depth of 170mm.

**CUT SAFE**

The AS170 provides superior operator safety. The inherently safe cutting action prevents kickback and is easy to control.

**PLUNGE CUT**

Use the AS170 to cut directly into flush walls without stitch drilling.

**CUT DRY / LOW DUST:**

This unique cutting technology creates very little fly dust protecting the operator and creating a cleaner work environment.

**HIGH VISIBILITY AND PRECISION CUTTING:**

The forward facing blades allow clear visibility when cutting making the AS170 the ideal tool whenever accuracy and precision is required.

**VIBRATION REDUCING HANDLE**

Significant vibration reduction to increase user comfort.

**POWERFUL HEAVY DUTY MOTOR**

Dust resistant heavy duty design ensures long motor life even in the toughest working environments.

**DUST BOOT WITH VACUUM ATTACHMENT**

Efficient dust control for jobs in sensitive environments.

**RESHARPENABLE TUNGSTEN CARBIDE TEETH**

Long lasting, designed specifically for cutting bricks and mortar.

**Auto Cut Off Brushes**

Prevents motor damage.
